Dear Parent / Carer,

In order to support remote learning during the pandemic, the Government has introduced a scheme to make it easier for students to access the internet for remote learning.

Help is available for eligible students through increased data allowance for mobile phone users.

This scheme temporarily increases data allowances for mobile phone users on certain networks. This is so that children and young people can access remote education if their face-to-face education is disrupted.

School can request mobile data increases for children and young people who meet all three of these criteria:

- do not have fixed broadband at home
- cannot afford additional data for their devices
- are experiencing disruption to their face-to-face education

Children with access to a mobile phone on one of the following networks might be able to benefit:

Three SMARTY Virgin Mobile EE Tesco Mobile Sky Mobile O2

For each request, we need to know:

- the name of the account holder
- the number of the mobile device
- the mobile network of that device (for example Three)

Increasing internet access through 4G routers

If increasing mobile data isn't a suitable option for some students, schools can also request 4G wireless routers. The Department for Education (DfE) is providing 4G wireless routers for eligible students to help them get online and access remote education.

If you feel that your child may benefit from either of these schemes then please contact us via enquiries@danum.outwood.com so that we can check eligibility and process the request through the DfE (Department for Education). I would once again like to take this opportunity to thank you for your continuing to support our students with online learning. Please continue to take care and stay safe.

Yours faithfully,

Mrs J Gaunt
